

DERRINGTON **MOVING FORWARD**

***FREE ENERGY SAVING BULBS or
POWER SAVING ADAPTER when
you complete this questionnaire!***

Dear Villager,

Derrington has been allocated a sizeable fund from the Borough Council to pioneer sustainable projects. As you are all probably well aware, the majority of people in the United Kingdom have not been leading a sustainable lifestyle. If everyone in the world consumed as we do in the UK, the planet would have died a long time ago. The credit crunch and high energy/ fuel bills have all made us realise we need to better husband what resources we currently have; with this in mind there are many projects that we could pioneer and pursue in the village to prove what can be achieved. Please read the topics below and tick the items below which you feel you would be interested in (maximum of 10) in order for us to understand in which areas we should focus. After you have completed the form it will be collected and you will receive your two free energy saving light bulbs.

HOUSEHOLD IMPROVEMENTS

- | | |
|--|--------------------------|
| House energy survey (i.e. advice on boilers etc) | <input type="checkbox"/> |
| Household energy meters (Smart meters) | <input type="checkbox"/> |
| House insulation (i.e. loft insulation) | <input type="checkbox"/> |
