1 Executive Summary

- 1.1 This Authority Monitoring Report covers the period of 1 April 2021 to 31 March 2022, referred to within the report as the monitoring year. The main body of the report summarises the progress that the Stafford Borough Council has made in delivering the adopted Local Plan, known as the Plan for Stafford Borough 2011-2031. The analysis includes a commentary on the New Local Plan, the development of Neighbourhood Plans, cross boundary co-ordination on strategic matters and related work, as well as the Self-Build and the Brownfield Land registers. Most importantly, the document provides an analysis of whether Local Plan targets are being achieved, such as the delivery of housing numbers and employment land sites.
- 1.2 The report is followed by an overview of Neighbourhood Plans (**APPENDIX 1**) and then the Local Plan performance indicators and targets (**APPENDIX 2**), which is used to monitor the delivery of the Plan's policies.

Progress on the Local Plan and Supporting Documents

- 1.3 The council has a fully adopted Local Plan, and work on the production of a new Local Plan commenced in July 2017. The Local Development Scheme (LDS) 2022, published on 19 October 2022, sets out the timeline to produce the New Local Plan and its supporting documents. The Preferred Option document was published in October 2022, and a public consultation on the document took place between Monday 24 October and Monday 12 December 2022. Responses to the consultation will be analysed and considered alongside updates to the New Local Plan evidence base before the Publication stage in July to September 2023, in accordance with the Local Development Scheme.
- 1.4 Six Neighbourhood Plans have been 'made' (adopted) for the parishes of Gnosall, Eccleshall, Hixon, Colwich (the Haywoods), Barlaston and Stone. Four Neighbourhood Plans are being progressed: Swynnerton, Hopton and Coton, Doxey, and Yarnfield and Cold Meece.
- 1.5 Stafford Borough continues to have cross-boundary strategic discussions, known as the "Duty to Co-operate", on housing, employment land, infrastructure and environmental issues with neighbouring authorities and key stakeholders.
- 1.6 The council has an up-to-date Brownfield Land Register and Self-Build Register, and is working towards providing self-build and custom housing plots to meet the demand on the register.
- 1.7 The authority was successful in its bid to secure further funding to undertake initial feasibility studies on the provision of a new garden community in the borough.
- 1.8 The authority exceeded the requirements of the Government's Housing Delivery Test for the 2021/22 monitoring year.

Progress on Local Plan Policies

1.9 The Local Plan performance indicators and targets in **APPENDIX 2** show that the Plan's policies are being successfully delivered. Of the 83 indicators, a total of 41

show a positive outcome, 16 show a neutral outcome, and 12 show a negative outcome over the monitoring year. 14 indicators have not unapplicable to the monitoring year.

- 1.10 Housing completions are above target this year; 506 compared to a target of 500 dwellings per annum. The borough has exceeded the target for seven consecutive years which stands us in good stead for the 'Housing Delivery Test' which was introduced by Government in 2019.
- 1.11 Housing supply remains strong. Stafford has a 5 year supply of deliverable sites and has sufficient commitments to meet the target of 10,000 homes over the Plan period 2011 2031.
- 1.12 2.5 hectares of employment land has been completed this year. This is lower than the Local Plan target of 8 hectares per annum. Supply is strong (110.7 hectares in the pipeline), and sites are being developed; the first phase of Redhill Business Park is complete, Beacon Business Park has seen consistent development over the past two years and Meaford Business Park is moving forward.
- 1.13 In the borough 70% of new housing development is proposed to be built in Stafford, 10% in Stone, 12% in the Key Service Villages and 8% across the rest of the borough area. When housing completions and committed sites are considered the percentages are generally in line with the Plan's development strategy.
- 1.14 Good progress has been made on the Strategic Development Locations in the borough. The East of Stafford allocation is building out well, there have been 623 completions to date. On the North of Stafford site there have been 575 completions to date. On the West of Stafford site 471 houses have been completed so far. Construction on the strategic site at Stone has seen the delivery of 354 out of 500 permissioned units in the 2021/22 monitoring year.
- 1.15 The Stafford Riverside development is complete, and the majority of units are now occupied.
- 1.16 The Stafford Station Gateway project, a multi-million pound residential and commercial development to the west of Stafford railway station linking the Western Strategic Development Location with the town centre is progressing well.
- 1.17 The number of affordable dwelling completions increased during 2021/22 to 261 units from 196 units the previous year, and above the target rate of 210 units per year. Generally affordable housing delivery has increased over the Plan period to date, however since the start of the Plan period the average remains under-target at 176 units delivered each year.
- 1.18 There has been two planning application approved for a renewable energy scheme within the monitoring year. There have been no losses in areas of biodiversity importance during 2021/22 and no listed buildings lost as a result of development.

2 Introduction and Spatial Portrait

- 2.1 Local Planning Authorities have a statutory requirement to produce an Authority Monitoring Report. The purpose of the report is to show progress with Local Plan preparation, assess the delivery of adopted Local Plan policies and targets, and to report on other planning policy activities such as Supplementary Planning Documents, Neighbourhood Plans, how authorities are working together on cross border strategic planning issues (Duty to Co-operate) and contributions made towards infrastructure provision.
- 2.2 This is the ninth Authority Monitoring Report to be produced since the adoption of the Local Plan (known as the Plan for Stafford Borough). The Report covers the period 1 April 2021 to 31 March 2022, referred to throughout the report as the monitoring year. Where appropriate, data has been provided for the last ten years so that an assessment can be made from the start of the Plan period in 2011.
- 2.3 Stafford Borough Council adopted Part 1 of the Plan for Stafford Borough in June 2014. Part 2 was subsequently adopted in January 2017. This report therefore sets out progress on both elements of the current Plan where data is available.

Spatial Portrait

2.4 Stafford Borough is centrally located within the county of Staffordshire. It lies between the north Staffordshire conurbation to the north, comprising of Stoke-on-Trent and Newcastle-under-Lyme, and the West Midlands conurbation to the south.

Figure 1 - Map of Stafford Borough in its locality

- 2.5 The borough is predominantly rural, covering approximately 230 square miles. It is the 238th most densely populated lower tier English local authority, of 317 such authorities. It has two main towns, Stafford and Stone and many villages and hamlets.
- 2.6 The borough has excellent transport links, including the M6, West Coast Mainline rail and in future will be served by High Speed 2 (HS2). Although the borough is relatively self-contained, there are important economic linkages with both the West Midlands and north Staffordshire conurbations.
- 2.7 The population of the borough in 2021 was 136,800 people, with a third of the population living in the borough's rural areas. Stafford and Stone are the borough's main employment centres.
- 2.8 Between 2000 and 2020 the borough's population is estimated to have grown by 14%, which is above the 13.1% increase for the West Midlands region but slightly below the 14.9% increase for England.
- 2.9 Stafford Borough has a relatively strong economy. Unemployment rates have been consistently lower than the national average. Skill levels are relatively high, with 52.9% of residents having NVQ level 4 qualifications or above compared to 43.1% of the population of Great Britain. The average earnings of borough residents are higher than the West Midlands and England averages. But the average earnings for jobs in the borough are below the averages for the West Midlands and England.
- 2.10 Median house prices and affordability ratios in the borough are below national averages, but above those for the West Midlands. The median housing affordability ratio for workplace-based earnings in 2021 was 7.71, compared to 9.05 for England and 7.50 for the West Midlands.
- 2.11 The borough is the 230th most deprived lower tier local authority in England, placing it in the 30% least deprived local authorities.
- 2.12 The natural landscape of the borough is characterised by flat, low-lying land between the rivers Trent, Penk and Sow. Much of the area is intensively farmed agricultural land (including stock farming), interspersed with ancient and semi-natural woodland and grasslands. The upland landscape in the south-east of the borough is nationally recognised through its designation as part of the Cannock Chase Area of Outstanding Natural Beauty.
- 2.13 The borough contains Ramsar sites (wetlands of international importance designated under The Convention on Wetlands, known as the Ramsar Convention, an intergovernmental environmental treaty which came into force in 1975) at Aqualate Mere, Chartley Moss and Cop Mere, 15 Sites of Special Scientific Interest (SSSIs) and 4 Special Area of Conservation (SAC) at Cannock Chase, Mottey Meadows, Chartley Moss and Pasturefields.

2.14 There are two areas of Green Belt in the borough. Extensive parts of the north of the borough lie within the North Staffordshire Green Belt while part of the south-eastern area of the borough is designated as part of the West Midlands Green Belt.

Planning Context

- 2.15 The Plan for Stafford Borough 2011-2031 provides for growth through a sustainable pattern of development. The Plan makes provision for both local needs and inmigration delivering a level of housing and employment that will satisfy both. The focus of development is the county town of Stafford which will take 70% of the overall housing allocation for the borough. This will be balanced by employment sites (56% of new employment development will be at Stafford town) and the provision of supporting infrastructure. Three strategic sites have been allocated on the edge of Stafford to support the majority of this housing growth: North of Stafford, West of Stafford and East of Stafford.
- 2.16 The smaller market town of Stone will accommodate 10% of the housing growth and will be supported with employment sites and appropriate infrastructure. The Plan for Stafford Borough allocates 12% of the borough's employment growth to Stone. A strategic housing site has been allocated to the west of Stone which will accommodate 500 new dwellings and an employment site has been completed to the south of Stone to provide 20 hectares of employment land. Additional housing and employment will be provided elsewhere in Stone through sites with planning consent.
- 2.17 11 Key Service Villages (KSVs) have been identified in the Plan which will take a lower level of growth; Eccleshall, Gnosall, Hixon, Great Haywood, Little Haywood / Colwich, Haughton, Weston, Woodseaves, Barlaston, Tittensor and Yarnfield. Overall, 12% of housing will be built in these sustainable villages which already provide many local facilities and services.
- 2.18 The remaining rural areas of the borough will accommodate a small amount of growth (8%). This is to provide for local needs and will primarily focus on the conversion of barns and rural buildings, and the provision of rural exception sites (sites for affordable housing outside the Key Service Villages).

Figure 2 - Stafford Borough diagram

3 **Progress on the Local Plan and Supporting Documents**

New Local Plan

- 3.1 The Development Plan for Stafford Borough (PFSB) currently consists of the Plan for Stafford Borough, adopted on 19 June 2014, and the Plan for Stafford Borough: Part 2 adopted on 31 January 2017. The Plan for Stafford Borough sets out the vision, key objectives and spatial strategy for the borough. It is the over-arching policy document to which any other planning policy documents must comply, including Neighbourhood Plans. The Plan for Stafford Borough Part 2 sets out the approach to development in the sustainable settlement hierarchy by establishing settlement boundaries for Stafford, Stone and the Key Service Villages, and boundaries for the Recognised Industrial Estates. It also includes a policy on protecting social and community facilities.
- 3.2 In addition Stafford Borough is covered by the Minerals Local Plan for Staffordshire (2015-2030), adopted on 16 February 2017, and the Staffordshire and Stoke-on-Trent Waste Local Plan (2010 to 2026), adopted on 22 March 2013, both produced by Staffordshire County Council.
- 3.3 The New Local Plan 2020-2040 will fully replace the Plan for Stafford Borough 2011-2031 (PFSB) and the PFSB Part 2 with a new development strategy, site allocations and Development Management policies. A 'Call for Sites' exercise has been undertaken and a public consultation on the key issues and options for consideration in the new Local Plan took place between Monday 3 February and Tuesday 21 April 2020. Responses to the consultation have been analysed and were considered alongside updates to the New Local Plan evidence base prior to publishing the Preferred Option document in October 2022. A public consultation for the Preferred Options document took place between Monday 24 October and Monday 12 December 2022. Responses to the consultation will be analysed and considered alongside updates to the New Local Plan evidence base before the Publication stage in July to September 2023, in accordance with the Local Development Scheme.
- 3.4 The <u>Local Development Scheme (LDS) 2022</u> sets out the timeline to produce each stage of the New Local Plan and its supporting documents. The timeline can be seen in Table 1 and can also be found on the <u>Local Development scheme webpage</u>.

Process stage	Proposed stage date
Commencement	July 2017 - Completed
Issues and Options	July 2018 to March 2020 - Completed
Preferred Options	October to December 2022 - Completed
Publication	July to September 2023
Submission	November 2023
Examination	February 2024
Adoption	October 2024

Table 1 - Local Develop	oment Scheme 2022 t	timeline
-------------------------	---------------------	----------

Supplementary Planning Documents (SPDs)

3.5 Two Supplementary Planning Documents have been adopted on 24 April 2018 covering "Design" and "Shopfronts and Advertisements". A further Supplementary Planning Document is currently being progressed on Biodiversity.

Neighbourhood Plans

- 3.6 The Localism Act 2011 introduced new rights and powers to allow local communities to prepare Neighbourhood Plans (NPs) for their area. There are two types of bodies that can undertake neighbourhood planning town and parish councils or neighbourhood forums. <u>Neighbourhood Development Plans</u> are prepared and led by local communities and set out a vision and aims for their local area, including general planning policies for the use and development of land covering topics such as housing, employment, environment, open space, and infrastructure.
- 3.7 Neighbourhood Plans must be in accordance with national and local planning policy and are subject to independent examination and public referendum. Once a Neighbourhood Plan has been through the statutory process and is 'made' (adopted) it forms part of the development plan for the area and is used to guide decisions on planning applications.
- 3.8 There are currently six parishes with made Neighbourhood Plans within the borough: Gnosall, Eccleshall, Hixon, Colwich, Barlaston and Stone. Four Neighbourhood Plans are also being progressed: Swynnerton, Hopton and Coton, Doxey, and Yarnfield and Cold Meece. Further information can be seen in Appendix 1.

Duty to Co-operate

- 3.9 The Localism Act (2011) sets out a requirement for local authorities to fulfil a Duty to Co-operate on strategic planning issues that cross administrative boundaries, and to engage constructively and actively through an ongoing basis on the preparation of Local Plan documents, including the preparation of evidence to underpin these documents. This is re-enforced in the National Planning Policy Framework (NPPF) which states that local planning authorities should work collaboratively with other bodies to ensure that strategic priorities across local boundaries are properly co-ordinated and clearly reflected through individual Local Plans.
- 3.10 The council continues to have on-going discussions on cross boundary planning issues with neighbouring councils. There are a number of cross boundary key issues where a complementary approach is required, including flood risk, provision of infrastructure (including transport links), the distribution of housing associated with local housing markets, Gypsy and Traveller accommodation, employment needs (through the Stoke on Trent and Staffordshire Local Enterprise Partnership) as well as protection of the environment and landscape. Stafford Borough Council worked on a number of joint evidence-based studies to support the Plan for Stafford Borough and continues to carry out active co-operation with its neighbours and partners.
- 3.11 During 2021/22, Stafford Borough Council continued to work pro-actively through the Cannock Chase Special Area of Conservation Partnership to mitigate the impact of new development on this European designation, with an updated developer contribution approach started on 1 April 2022. Furthermore, the council continues to work with neighbouring authorities on strategic issues, not least as part of the Constellation Partnership (formerly known as the Northern Gateway Development Zone Partnership). This enables the investigation of further development opportunities associated with High Speed 2 (HS2). The council also works alongside two Local Enterprise Partnership (LEP) areas, as well as neighbouring authorities within the Partnership including Cheshire East, Cheshire West and Chester, Staffordshire County Council, Newcastle-under-Lyme, the City of Stoke-on-Trent and Staffordshire Moorlands Councils.

Community Infrastructure Levy and developer contributions

- 3.12 The Community Infrastructure Levy (CIL) is a charge that can be levied on planning developments to support the infrastructure needs of an area as defined by the Plan for Stafford Borough. It can be used to fund new strategic transport, education, open-space, and recreation provision that cannot be funded by other means. CIL is charged per square metre on the net additional floorspace of a development. There are exemptions to the charge, including self-build housing and social housing.
- 3.13 A significant amount of work was undertaken to progress a Community Infrastructure Levy Charging Schedule in 2015. However, before the project had concluded the Government announced that the CIL process would be reviewed and therefore the work was put on hold. The council will be considering the reintroduction of CIL through the New Local Plan process.
- 3.14 Currently developer contributions continue to be collected through Section 106 agreements to help deliver key infrastructure in the borough. The council publishes an annual <u>Infrastructure Funding Statement</u>, which provides a summary of the contributions received, spent and used sets by the council each financial year.

Brownfield Land Register

3.15 The <u>Brownfield Land Register</u> is a list of previously developed sites that are suitable for housing development in the borough. The purpose of the Register is to highlight availability of brownfield sites to potential developers, and to consider whether any of the sites would benefit from a new type of planning permission called 'permission in principle'.

Self-Build Register

3.16 As part of the Government's drive to increase housebuilding, self-build and custom build housing is being promoted. New legislation has been enacted through the Housing and Planning Act 2016 requiring local authorities to keep a register of those interested in acquiring a self-build plot, known as the <u>Self-Build Register</u>. The council is required to keep a register of individuals and groups who want to acquire land within the borough for self-build homes and are working towards providing self-build and custom-build plots to meet the demand. Table 2 shows how many individuals are registered, and at the end of the monitoring year the register contained 67 entries.

Monitoring year	Number of individuals registered
2016/17	23
2017/18	8
2018/19	5
2019/20	10
2020/21	10
2021/22	11
Total	67

Table 2 - Self-build Register

4 Progress on Local Plan Policies

Housing and Communities

4.1 The housing target in the Plan for Stafford Borough is 10,000 dwellings over the period 2011-2031, which equates to the delivery of 500 dwellings per annum. Housing completions since the start of the Plan period are set out in Table 3. The borough under-provided for the first four years of the PFSB (2011/2-2014/15), however since 2015/16 the borough has delivered above the required target. The average completion rate is 609 dwellings, which is above target for the Plan period to date and reflects an increased delivery from the Strategic Development Locations in Stafford and Stone as well as other larger housing sites across the borough.

Monitoring year	Number of dwellings delivered
2011/12	425
2012/13	306
2013/14	411
2014/15	428
2015/16	688
2016/17	1010
2017/18	863
2018/19	699
2019/20	752
2020/21	614
2021/22	506

Table 3 - Housing delivery per monitoring year

- 4.2 The policy framework states that predominately future development will be delivered in Stafford, Stone and 11 Key Service Villages (KSVs) across the borough. Annual targets have been set for the distribution of housing and employment growth within the settlement hierarchy. For housing growth, 70% of these new developments will be delivered in Stafford, 10% in Stone, 12% in the Key Service Villages and 8% across the rest of the borough.
- 4.3 Since the start of the Plan period in 2011, 55% of housing completions have been delivered in Stafford, 15% in Stone, 19% in the Key Service Village, and 11% in rural areas. There has therefore been an under-delivery in Stafford and an over-delivery in Stone, the Key Service Villages, and other rural areas. However, when both housing completions and commitments are considered together i.e., those that have been built and those with either planning permission or sites allocated in the Plan, the

percentages are generally in line with the Plan's target. Table 4 below sets out the targets and the percentages achieved.

Location	Target (%)	Completions 2011-2021 (%)	Completions and Commitments (%)
Stafford	70	55	72
Stone	10	15	10
Key Service Villages	12	19	11
Rural Areas	8	11	7

Table 4 - Settlement hierarchy housing targets and delivery

- 4.4 Over the Plan period 7,000 new dwellings have been allocated for delivery at Stafford town. Since 2011, 3,660 dwellings have been built, and there are a further 5,479 dwellings either under-construction, with planning permission or part of a Local Plan allocation. 200 affordable houses were delivered in Stafford town in the monitoring year, which is above the target (105 per annum). Of these, 155 were for affordable rent, 10 were for social rent and 35 were for intermediate housing.
- 4.5 Updates on the Local Plan allocations, or Strategic Development Locations (SDLs), in Stafford town are as follows:
 - The North of Stafford site is moving forward. Of the 3,275 dwellings allocated at this strategic site 575 dwellings have been completed up to the end of the monitoring year, and planning permission has been granted for 700 dwellings, with the remaining 2,000 dwellings as Plan allocation commitment. A total of 28 affordable housing units have been delivered in the monitoring year.
 - The West of Stafford strategic site is allocated 2,200 dwellings. At the end of the monitoring year, a total of 471 dwellings have been completed, and planning permission has been granted for 1,377 dwellings, with the remaining 352 dwellings as Plan allocation commitment. On the areas of site that have planning permission, 30% of the houses delivered will be for affordable housing as agreed in the S106 Agreement. In the monitoring year, 42 affordable units were delivered.
 - The East of Stafford strategic site is allocated 653 dwellings. At the end of the monitoring year, a total of 623 dwellings have been completed, with the remaining 30 dwellings as Plan allocation commitment. Of the 653 dwellings, a total of 192 affordable housing units have been delivered.
- 4.6 Over the Plan period 1,000 new dwellings have been allocated for delivery in Stone town. Since the start of the Plan period, 996 dwellings have been built and a further 232 dwellings have planning permission. 43 affordable dwellings were delivered in Stone town in the monitoring year; this is over the target of 20 per annum. 35 were for affordable rent and 8 were for shared ownership or intermediate housing.
- 4.7 Updates on the Local plan allocations, or Strategic Development Locations (SDLs), in Stone are as follows:
 - The strategic site in Stone is allocated 500 dwellings. At the end of the monitoring year, a total of 354 dwellings have been completed on site. It has been agreed that 32% of the dwellings provided will be for affordable housing. 39 affordable

housing units were delivered in this monitoring year. Development on the Stone Business Park Extension providing 21.07 hectares of employment land has now been completed

- 4.8 In addition, conversions have been completed to traditional rural buildings to create a total of two new dwellings in rural areas, helping to provide for local housing need whilst preserving their character.
- 4.9 The council can demonstrate more than a 5-year supply of housing land. There are 7 years of deliverable housing sites with the inclusion of a 5% buffer. The calculation of the 5-year supply includes sites with planning permission and those allocated in the Local Plan. A full analysis of the 5-year housing land supply situation, and the council's annual report on housing delivery, known as 'Land for New Homes', can be found at www.staffordbc.gov.uk/monitoring
- 4.10 The Plan for Stafford Borough supports sustainable development on brownfield land. During the monitoring year 2021/22, 27% of housing completions were on brownfield land, in comparison to 43% during 2020/21. The figure is significantly lower than at the start of the Plan period, for example in 2012/13 the figure was 80%. This is because of greenfield sites coming forward through the adopted Plan for Stafford Borough's development strategy.
- 4.11 The council has exceeded the Housing Delivery Test for the 2021/22 monitoring year.
- 4.12 It is important that an appropriate mix of dwelling types, tenures and sizes is delivered within the borough to meet identified needs. Of the houses built in the current monitoring year 27% were 1 and 2 bedroomed, 43% were 3 bedroomed and 30% were 4 bedroomed or over.
- 4.13 In total, 261 units of affordable housing were delivered in the monitoring year which is an increase from last year's figure of 196 units, and above the target rate of 210 units per year. Affordable housing has been delivered through a mix of grant funding and Section 106 agreements. Generally affordable housing delivery has increased over the Plan period to date, however since the start of the Plan period the average remains under-target at 176 units delivered each year. Table 5 below shows the number of affordable housing delivered in the borough since 2011.

Monitoring year	Number of affordable housing units delivered
2011/12	83
2012/13	48
2013/14	91
2014/15	199
2015/16	159
2016/17	343
2017/18	219
2018/19	147
2019/20	189
2020/21	196

Table 5 - Affordable housing delivery

2021/22	261
---------	-----

4.14 The adopted Plan includes Policy C6 which seeks to ensure that an adequate supply of gypsy and travellers' sites at appropriate locations are delivered over the lifetime of the Plan. Technical work undertaken for Part 2 of the Plan identified that 43 gypsy and traveller pitches are needed over the Plan period. Planning permission for 3 gypsy and traveller pitches have been granted in the current monitoring year.

Economy

- 4.15 A strong economy is supported by an adequate supply of employment land, provision of high-quality transport and communications infrastructure, and a good skills base. Stafford Borough historically has had a good portfolio of employment land, but sites are now being built out and new allocations will need to be identified as part of the New Local Plan. The borough has a low unemployment rate of 4%, compared to the regional rate of 5.4% and the national rate of 5%, which is an indicator of a healthy economy.
- 4.16 There are six Recognised Industrial Estates in the borough at Hixon, Hixon Airfield, Ladfordfields, Moorfields, Pasturefields and Raleigh Hall. In this monitoring year, there has not been any new planning permissions within the Recognised Industrial Estates, but extant planning permissions are still live on these sites from previous monitoring years. Raleigh Hall has no more employment land allocations from the Local Plan and Ladfordfields has 5.8 hectares remaining.
- 4.17 The target provision of employment land in the borough is 8 hectares per year. Table 6 shows the gross build rates of employment land since the start of the Plan period. Completions were under target this monitoring year at 2.5 hectares, with 54% of completions (floorspace) on brownfield land, which a slight increase since last year at 40%. During the monitoring year 0.42 hectares of employment land has been lost to housing. The average completion rate is 6.75 hectares, which is below target for the Plan period to date.

Number of hectares delivered

2.5			

Table 6 – Gross employment land delivery

4.18 There are 110.72 hectares of employment land supply committed to by sites with planning permission or allocated in the Local Plan, as can be seen in Table 7.

Commitment type	Number of hectares of employment land
With planning permission	90.32
Local plan allocation without planning permission	20.4
Total commitments	110.72

Table 7 - Employment land commitments

- 4.19 Two strategic employment sites have been allocated at Stafford town, one to North of Stafford (Redhill) and one to the East of Stafford (Beacon Business Park). The Redhill employment site is 45 hectares in total; all 45 hectares has planning consent or has been built. At Beacon Business Park, to the east of Stafford, a public house, 9 plots, a drive through coffee shop, a convenience store and four retail units have been completed. This leaves a remaining 12.8 hectares allocated in the Local Plan.
- 4.20 Out of a total of 2.5 hectares of employment land developed across the borough in 2021-2022, 0.71 hectares were developed in rural areas helping to provide rural employment and contribute towards a sustainable rural economy. A further 0.3 hectares of employment land was granted planning permission during the monitoring year in rural areas.
- 4.21 Three Major Developed Sites in the Green Belt have been identified in the adopted Plan as potential sites for employment infill or part / complete redevelopment. These include Hadleigh Park (former Creda Works Limited) at Blythe Bridge, Moorfields Industrial Estate near Swynnerton and the former Meaford Power Station at Meaford, north of Stone. Hadleigh Park is in existing employment use and there are currently no planning permissions on this site. Moorfields Industrial Estate is an established employment area which is not currently subject to any extant planning permissions. The former Meaford Power Station site has 32.5 hectares of land with planning permission and a new access road has been constructed. Plot 3 (1.57 hectares) was completed for B use class in the 2016/17 monitoring year.
- 4.22 Policy E8 of the adopted Local Plan supports the functions, vitality and viability of town, local and other centres specified in the hierarchy of centres. The aim is that retail, office and leisure developments should be focused in the town centres. Of all retail, leisure and office developments that have been built in the monitoring year, 42% were in the defined town centres of Stafford, Stone and the KSV's. Of the extant retail, office and leisure commitments (sites with permission that have not yet been developed), 8% are in Stafford and Stone town centres, whilst 0% are within other defined local centres.
- 4.23 In the current monitoring year, 156m² of retail development was completed in Stafford town centre. In the same location, a further 996m² was either underconstruction or had planning permission. The Riverside retail development is complete, and the majority of the units are now occupied.
- 4.24 Preliminary work is progressing on the Stafford Gateway Project, a multi-million pound commercial and housing development to the west of Stafford railway station. Consultation on the draft regeneration framework for the Stafford Station Gateway ran for six weeks and closed on 29 September 2022.

Tourism and Leisure

4.25 One hotel bed space was built in 2021-22 and 10 hotel bed spaces were granted permission in the monitoring year.

Natural and Historic Environment

- 4.26 The adopted Plan promotes measures to combat climate change and promote renewable energy. In terms of recycling, the Authority has achieved a household recycling rate of 48% this year (a decrease from 51% last year); which is below the target which has been set at 60%. It is however above the <u>UK recycling rate for</u> <u>Waste from Households</u> of 44% in 2020. An initiative has been put in place to help reduce contamination in recycling by using blue bags, which has successfully reduced the rate of contamination from 15% to 8%. There have been two renewable energy schemes approved this year for the installation of a solar carport and the other incorporating new biomass boilers.
- 4.27 The natural environment is an important asset ecologically, economically and for health purposes. There have been no changes or recorded losses in respect of areas of biodiversity importance in the monitoring year including RAMSAR / SAC sites and Sites of Special Scientific Interest. A survey of local wildlife sites is on-going to establish any recent changes to habitat and species.
- 4.28 The Cannock Chase Special Area of Conservation (SAC) is protected by European legislation. Any housing development that is approved within 15 km of the Cannock Chase SAC is required to contribute monies towards the mitigation of this important habitat, with an updated developer contribution approach commencing on 1 April 2022. To date over £1,124,334 has been collected from housing developments and over £1,094,463 has been committed across the seven competent authorities, towards delivery of mitigation measures for the SAC. These include:
 - Resources and events for community engagement, visitor interpretation panels, leaflets and a new dedicated web-site
 - Contribution towards the newly opened Learning Hub at Wolseley Bridge
 - On-going monitoring of car parking, footpaths and signage audits
 - Publication of the Detailed Implementation Plans to enable delivery of mitigation leading to the finalisation of the Cannock Chase Planning Evidence Base review to support the new Memorandum of Understanding and developer contribution scheme
 - Delivery of new mountain biking routes with Forestry England as part of the Commonwealth Games 2022 legacy
 - Supporting a major project at the Shugborough Estate in partnership with the National Trust
 - New air quality monitoring of SACs across the Borough on nitrogen dioxide and ammonia levels
- 4.29 The conservation of listed buildings is an important element of the planning system contributing to distinctive and attractive environments. There are 6 heritage assets on the Historic England Heritage at Risk Register in 2022 across the borough, this is one less than 2021. Two of these are classed as buildings and structures, two are archaeological entries and two are Conservation Area entries. No listed buildings were lost in the monitoring year through development proposals.

Infrastructure

4.30 Infrastructure provision is key to supporting the growth aspirations of the borough, in particular at the strategic development sites in Stafford and Stone. The two major transport schemes identified in the adopted Plan are the Stafford Western Access Route and the Stafford Eastern Access Route. The Stafford Western Access Route has been completed, and the first phase of the Stafford Eastern Access Route between Beaconside and Tixall Road was completed and opened in early 2019. Stafford station has been confirmed as an integrated High Speed 2 station and work is progressing to capitalise on the opportunities HS2 will bring. A new Infrastructure Delivery Plan has been produced and published in October 2022 to support the Preferred Options document, which identifies what infrastructure is needed to support the delivery of the proposed strategic aims and policies.

Social and Community facilities

4.31 During the monitoring year, no applications have been permitted for the provision fitness or social facilities

Conclusion

- 4.32 Progress has been made on the development of the new Local Plan 2020-2040. An updated Local Development Scheme (LDS) has been recently published, with the new Local Plan currently on track to meet the proposed dates and associated milestones. A new Biodiversity SPD is also currently being developed.
- 4.33 Six Neighbourhood Plans have now been 'made' (adopted) for the parishes of Gnosall, Eccleshall, Hixon, Colwich (the Haywoods), Barlaston and Stone. Four Neighbourhood Plans are being progressed: Swynnerton, Hopton and Coton, Doxey, and Yarnfield and Cold Meece.
- 4.34 Housing delivery completions remain above the target of 500 new homes completed each year. In the current monitoring year 506 dwellings have been completed, creating an average annual completion average rate of 609 dwellings per annum. The council is exceeding the Government's Housing Delivery Test. Housing commitments remain strong, with the borough having more than a 5-year supply of housing sites. Affordable housing delivery has not meet the annual target of 210, with 261 affordable housing completions delivered this monitoring year.
- 4.35 Employment land build rates were below target this year, although there is a good supply of employment land having been committed to comprising sites with planning permission or allocated in the Local Plan.
- 4.36 There has been good progress on the housing and employment strategic development locations around Stafford with further completions and planning applications coming forward.
- 4.37 Overall, when considering all the indicators that are used to monitor the Plan, the majority show successful delivery of the Plan's policies. Of the 83 indicators, a total of 41 show a positive outcome, 16 show a neutral outcome, and 12 show a negative outcome over the monitoring year. 14 indicators have not been applicable to the monitoring year.

Spatial Principle/Policy	Indicator	Target	Outcome	Comments
SP1 – Presumption in favour of Sustainable Development	 Number of dwellings completed on Previously Developed Land (PDL) Percentage of completions at each level of the sustainable settlement hierarchy as set out in SP3 	1. Maximise 2. Maximise	1. Negative 2. Positive	 Out of the 506 housing completions in the monitoring year, 136 (27%) were on previously developed land. This is an decrease on last year's figure (43%). Since the start of the plan period, 55% of housing completions were in Stafford, 15% were in Stone, 19% were in the Key Service Villages and 11% were in the rural areas. However, over the Plan period the split for both housing completions and commitments is 72% for Stafford Town, 10% for Stone, 11% for the KSVs and 7% for the rural areas.
SP2 – Stafford Borough Housing and Employment Requirements	 Net number of new houses delivered Number of net additional Gypsy and Traveller residential and transit pitches permitted and delivered Employment land available by type/amount of additional employment floor space by type 	 Maintain a 5 year land supply of 500 dwellings per year Maintain a 5 year supply of Gypsy and Traveller pitches Maintain a supply of 8 hectares of employment land per year 	 Positive Negative Negative 	 506 houses were completed in 2021- 2022, a decrease from last year's 614 completions. The rate is still above target. Planning permission for 3 gypsy and traveller pitches was granted in the monitoring year. 2.5 hectares of employment land was built this year which is below target. 74.3 hectares have been developed since 2011, and an average of 6.75 hectares has been built per year since the start of the Plan period.

APPENDIX 2 - The Plan for Stafford Borough performance indicators and targets

SP3 - Stafford Borough Sustainable Settlement Hierarchy	1. Percentage of additional dwellings provided in Stafford, Stone and Key Service Villages	1. Stafford Town 70%, Stone Town 10%, Key Service Villages 12%, Rest of borough area 8%	1. Positive	1. Since the start of the plan period, 55% of housing completions were in Stafford, 15% were in Stone, 19% were in KSVs and 11% were in the rural areas. However, over the Plan period the split for both housing completions and commitments is 72% for Stafford Town, 10% for Stone, 11% for the KSVs and 7% for the rural areas.
SP4 - Stafford Borough Housing Growth Distribution	1. Number of new Houses built (net completions)	1. 500 per year	1. Positive	1. 506 dwellings were built in the monitoring year. This is above target.
SP5 - Stafford Borough Employment Growth Distribution	 Employment land available by type delivered in Stafford Borough and amount of floor space developed in Stafford Borough 	1. 8 hectares(ha) per year	1. Negative	2. At the end of the monitoring year there were 90.32 ha of employment land with planning permission, and an additional 20.4 ha allocated in the Local Plan, totalling 110.72 ha. This equates to a supply of 12.3 ha per annum over the remaining 9 years of the Plan period. 2.5 ha of employment land have been developed this monitoring year and 74.3 ha have been developed in total since the start of the plan period. An average of 6.75 hectares of employment land is delivered per year since 2011. This is below target.
SP6 - Achieving Rural Sustainability	 Amount of land and floor space developed outside key service villages Number of completed conversions of traditional rural buildings 	 Increase the level of appropriate employment schemes and other rural diversification schemes Monitor 	 Negative Neutral Negative 	1. 0.71 hectares of employment land was developed in rural areas in the monitoring year. This is a decrease on last year.

	3. Number of Rural Exceptions Housing Completed	3. Increase the number of rural affordable houses in rural areas commensurate with local need		 Out of a total of 506 housing completions, 2 were converted from traditional rural buildings. There were no affordable housing completions on rural exception sites in the 2021-2022 monitoring year.
SP7 - Supporting the Location of New Development	1. Percentage of completions at each level of the sustainable settlement hierarchy as set out in SP3	1. Stafford Town 70%, Stone Town 10%, Key Service Villages 12%, Rest of borough area 8%	1. Positive	 Since the start of the plan period,55 % of housing completions were in Stafford, 15% were in Stone, 19% were in the KSV's and 11% were in the rural areas. However, over the Plan period the split for both housing completions and commitments is 72% for Stafford Town, 10% for Stone, 11% for the KSVs and 7% for the rural areas.
Policy Stafford 1 – Stafford Town	 Total number of net additional dwellings delivered in Stafford Town over the Plan period Total number of affordable Total number of dwellings delivered for Military personnel returning Employment land available by type delivered on Strategic sites in Stafford Town Amount of additional employment floorspace by type in Stafford Town Monitor implementation and delivery of infrastructure projects necessary on 	 To deliver 7,000 houses, achieve To deliver 30% affordable housing, and to achieve an affordable housing mix of 80% social rented housing and 20% intermediate tenure housing. To provide Up to 400 dwellings to be delivered for Military personnel returning. Provision of new employment sites to the north and East of Stafford 14,000 sqm (net) of non- food retailing and 3,400 	1.Positive 2.Positive 3.Positive 4. Positive 5. Negative 6.Positive 7.Positive	 3,660 dwellings have been built in Stafford Town since the start of the Plan Period (10 years in total), which is below target. However, there are a further 5,479 dwellings committed (with planning permissions or with a Plan allocation). 200 affordable houses were delivered in Stafford town in the monitoring year, which is above the target (105 per annum). Of these, 155 were for affordable rent, 10 were for social rent and 35 were for intermediate housing. A site has been completed with 346 dwellings for Military Personnel in Stafford Town (in the 2014-2015 monitoring year). The Redhill employment site is 45 hectares in total, all 45 hectares has

	strategic sites to bring the project forward 7. Loss of employment land to non-employment uses	sqm (net) of food retail to be delivered in Stafford Town Centre 6. Deliver Western and Eastern Access Improvements 7. No loss of employment land to non-employment uses		 planning consent or been built. At Beacon Business Park, to the East of Stafford, a public house, 9 plots, a drive through coffee shop, a convenience store and four retail units have been completed. This leaves a remaining 0.35 hectares with planning permission and a remaining 12.4 hectares allocated in the Local Plan. 5. In the monitoring year 156m² of retail space was completed in Stafford Town Centre. 996m² was either under-construction or had planning permission. 6. Stafford Western Access Rote: Planning consent was achieved in November 2015 and the scheme commenced in August 2019. It opened in 2021. Stafford Eastern Access Route: The first phase of the access route between Hydrant Way and Tixall Road is complete. 7. 0.42 hectares of employment land was lost to housing schemes in Stafford Town in the monitoring year.
Policy Stafford 2 – North of Stafford	 Net Number of Additional Dwellings Gross affordable housing completions Mixture of tenure and types of new dwellings Employment land Available by type delivered on Strategic sites 	 3,100 houses to be delivered in Stafford Town over the plan period To achieve 30% affordable housing and to achieve an affordable housing mix of 80% social rented housing 	 Positive Neutral Positive Positive Positive Neutral 	 Of the 3,275 houses allocated at the North of Stafford site, 575 have been built to date. There is planning permission for a further 2,700 houses. On the five sites that have full planning permission, it has been agreed that a minimum of 348 affordable units will be delivered on the North SDL.

	5. Planning permission and completions of local community based infrastructure and educational facilities	 and 20% intermediate tenure housing. 3. A proportion of new dwellings to be two or three bedroomed properties 4. 36 ha of employment to be delivered on the SDL, and the provision of new employment site to the north 5. Deliver facilities 		 Of the 98 completions this monitoring year, 0% were 1 bedroomed, 50% were 2 and 3 bedroomed homes and 50% were 4+ bedroomed homes. The Redhill employment site is 45 hectares in total, all 45 hectares has planning consent or been built. Five Section 106 agreements have been agreed relating to the 2,701 dwellings with full planning permission set out developer contributions towards affordable housing, recreational facilities, Cannock Chase SAC, education, employment and skills planning and transport.
Policy Stafford 3 - West of Stafford	 Net Number of Additional Dwellings Gross affordable housing completions Mixture of tenure and types of new dwellings Employment land Available by type delivered on Strategic sites Planning permission and completions of local community based infrastructure and educational facilities 	 2,200 houses to be delivered in Stafford Town over the plan period To achieve 30% affordable housing and a mix of 80% social rented housing and 20% intermediate tenure housing A proportion of the properties to be two or three bedroomed properties 5 ha of employment to be delivered on the Strategic 	 Positive Positive Positive Positive Positive Neutral 	 Of the 2,200 dwellings allocated at the West of Stafford site, 471 have been built to date. There is planning permission for a further 1,377 dwellings, and a remaining plan allocation of 352. On the five sites that have planning permission, it has been agreed that 865 of the dwellings (30%) will be delivered as affordable housing, 80% will be for social rent and 20% for intermediate housing. In the monitoring year, 42 affordable units were delivered. Of the 98 completions last year, 73% were 2 and 3 bedroomed houses and 27% were 4+ bedroomed houses.

		Development Location (SDL) 5. Deliver facilities		 4. A public house was completed on part of the mixed use / employment element of the West of Stafford strategic site in 2014-2015. There have been no further employment planning permissions or completions. 5. Five Section 106 agreements have been agreed relating to the 1,848 dwellings with full planning permission set out developer contributions towards affordable housing, education, open space, sports and leisure, transport schemes, the Cannock Chase SAC and the Stafford Western Access Route. Construction of the Western Access Route. Construction of the Western Access Route began in August 2019.
Policy Stafford 4 - East of Stafford	 Net Number of Additional Dwellings Gross affordable housing completions Employment land Available by type delivered on Strategic sites Planning permission and completions of local community based infrastructure and educational facilities 	 600 houses to be delivered in Stafford Town over the plan period To achieve 30% affordable housing and a mix of 80% social rented housing and 20% intermediate tenure housing 20 ha of employment land to be delivered at Beacon Business Park Deliver facilities 	 Positive Positive Positive Positive Neutral 	 Of the 653 dwellings allocated at the East of Stafford site, 623 have been built to date. There is a remaining plan allocation of 30 dwellings. It has been agreed that affordable housing will be delivered, with an 80/20 split between social rented and intermediate housing. As of 31 March 2022, 192 affordable units have been delivered. At Beacon Business Park a public house has been built and 9 plots have been completed. One permission is extant, with the proposal to build an industrial unit.

				4. The Section 106 agreements relating to the 71 dwellings with full planning permission provide for the following infrastructure needs; affordable housing (30%), education, on-site open space, sports facilities, the Cannock Chase SAC and highways works. The first phase of the Stafford Eastern Access Route is complete and opened in early 2019.
Policy Stone 1 - Stone Town	 Net Number of Additional Dwellings Gross affordable housing completions Mixture of tenure and types of new dwellings Employment land Available by type delivered on Strategic sites Loss of employment land to non-employment uses 	 1,000 houses to be delivered in Stone Town over the Plan period. 2. To achieve 40% affordable housing and a mix of 80% social rented housing and 20% intermediate tenure housing. 3. A proportion of the properties to be two or three bedroomed properties. 4. 1,700 sqm (net) of food retailing and 400 sqm (net) of non-food retailing to be delivered at Stone Town Centre. 5. No loss of employment land to non-employment uses. 	 Positive Positive Positive Positive Positive Negative 	 996 dwellings have been built in Stone town so far over the Plan Period. There are a further 232 that have planning permission. 43 affordable dwellings were delivered in Stone town in the monitoring year; this is over the target of 20 per annum. 35 were for affordable rent and 8 were for shared ownership or intermediate housing. Of the houses built in Stone Town this monitoring year, 3% were 1 bedroomed, 67% were 2 and 3 bedroomed and 30% were 4+ bedroomed. In the monitoring year, there was one employment completion of zero hectares and there is one extant planning permission on Stone Business Park, providing 1.2 hectares of employment land. In 2021-2022, there was 104 m² retail floor space completed in Stone Town Centre.

				5. Zero hectares of employment land was lost to housing in Stone over the 2020-21 monitoring year.
Policy Stone 2 - West and South of Stone	 Net Number of Additional Dwellings Gross affordable housing completions Mixture of tenure and types of new dwellings Employment land Available by type delivered on Strategic sites Planning permission and completions of local community based infrastructure and educational facilities 	 500 dwellings to be delivered in Stone Town over the plan period To achieve 40% affordable housing and a mix of 80% social rented housing and 20% intermediate tenure housing A proportion of the properties to be two or three bedroomed properties 20 ha of employment land to be delivered south of Stone Business Park Deliver facilities 	1. Positive 2. Negative 3. Positive 4. Positive 5. Neutral	 The strategic allocation at Stone gained outline planning consent in February 2015 for 500 dwellings. Permission for 309 units were granted on site. There was 90 completions in the monitoring year. The sites with full planning permission are set to deliver 160 affordable units. This represents 32% of the combined sites, which is below the target of 40%. 39 affordable housing units were delivered in this monitoring year. 80% of the affordable housing will be for social rent and 20% will be for intermediate housing. The three reserved matters planning permissions extant on the Stone SDL will result in the delivery of 41 2 bedroom homes and 94 3 bedroom homes. This represents 68% of the total units on site. A planning permission for a 21.07 hectares vehicle distribution centre was granted in January 2018. This site was completed in the 18/19 monitoring year. The Section 106 agreement for the Stone Strategic Development Location secures 32% on-site affordable housing, education monies towards new school facilities, bus and

Policy E1 - Local Economy	 Amount and percentage of employment floor space developed on previously developed land Amount and type of land available 	 Maintain a ready supply of employment land to meet future needs. Maintain a ready supply of employment land to meet future needs. 	1. Negative 2. Positive 3. Positive	 highway improvements including improvements to the A34/B5026 Walton roundabout and open space and sports provision. 1. 24,700m² of floor space was built in Stafford Borough 2021-2022 which is a decrease on previous years and is below target. 54% of this development was on previously developed land.
	3. Amount of employment land lost to other uses	3. Minimise the loss of employment land to other uses		 2. 110.72 hectares of employment land is available for development (sites with planning permission or allocated in the Local Plan). 3. A total of 0.42 hectares of employment land was lost to housing over the monitoring year.
Policy E2 - Sustainable Rural Development	 Amount of employment based planning permissions granted within rural areas Completions of Rural Exception Housing 	 Maximise the provision of employment land within rural areas. Increase the number of rural affordable houses in rural areas commensurate with local need 	1. Positive 2. Neutral	 0.43 hectares of employment land was granted planning permission in rural areas in the monitoring year. There were no affordable housing completions on rural exception site in the 2021-2022 monitoring year.
Policy E3 - Development within Recognised Industrial Estates	1. Amount of new employment floor space granted planning permission within Recognised Industrial Estates	 Maximise the provision of employment land within Recognised Industrial Estates. 	1. Positive	1. 4.45 hectares of employment land was granted planning permission at Recognised Industrial Estates in the 2021/2022 monitoring year. These were at Raleigh Hall, Hixon Airfield and Ladfordfields Industrial Estate.
Policy E4 - Raleigh Hall and	1. Amount of new employment land granted planning	1. Deliver 4 hectares of new employment land at	1. Positive	1. In the 2021/2022 monitoring year 4.66 hectares of employment land are still

Ladfordfields Recognised Industrial Estates (RIEs)	permission on Ladfordfields and Raleigh Hall RIE's	Raleigh Hall and 6 ha at Ladfordfields		permitted at Raleigh Hall and Ladfordfields have zero hectares of land with planning permission but still has 5.8 hectares allocated yet to be delivered.
Policy E5 - Major Developed Sites in the Green Belt	 Amount of new employment land developed on Major Developed Sites Amount and % of employment floor space developed on previously developed land (PDL) 	1. Maximise 2. Maximise	1. Neutral 2. N/A	 There were no developments completed on major developed sites in the Green Belt this year. Not applicable this monitoring year.
Policy E6 – Tourism	1. Number of Hotel spaces granted planning permission	1. Encourage	1. Positive	One hotel bed space was built in 2021-22 and 10 hotel bed spaces were granted permission in the monitoring year.
Policy E7 - Canal Facilities and New Marinas	1. Number of new canal facilities or marinas developments granted planning permission	1. No Set Target	1. Neutral	1. Permission for the construction of a canal marina and associated facilities was granted in the 2019/2020 monitoring year.
Policy E8 - Town, Local and Other Centres	1.Amount of Floorspace for retail, leisure, office within Town Centres	 To focus retail and office and leisure developments on Stafford and Stone Town centres, and to protect existing facilities within existing town and Key Service Village centres 	1. Positive	 Of all retail, leisure and office developments that have been built in the monitoring year, 42% were in the defined town centres of Stafford, Stone and the KSV's. Of the extant retail, office and leisure commitments (sites with permission that have not yet been developed), 8% are in Stafford and Stone town centres, whilst 0% are within other defined local centres.
Policy T1 – Transport	1. Number of planning permissions granted for	1. Secure Travel Plans on all major developments	1. N/A	1. This indicator is currently under development.

	major developments with secured Travel Plans			
Policy T2 - Parking and Manoeuvring	1. For developments to meet the parking Standards set out in Appendix B	1. All developments to be in accordance with the Car Parking standards in Appendix B of the Adopted Plan.	1. N/A	1. This indicator is currently under development.
Policy C1 - Dwelling Types and Sizes	 Monitor the mix of housing type (flats / houses and sizes and bedroom number) 	1. Housing types and sizes to meet the identified needs as set out in the Strategic Housing Market Assessment.	1. Neutral	1. Of the houses built this year, 27% were 1 or 2 bedroomed, 43% were 3 bedroomed and 30% were 4 or more bedroomed.
Policy C2 - Affordable Housing	 Annual number of affordable housing completions (gross) Number of net completions of rural exception houses 	 Affordable housing to be at least 30% and 40% on qualifying sites On rural exception sites 100% dwellings affordable in perpetuity for lifetime of development. 	1. Positive 2. Neutral	 261 affordable houses were delivered in the monitoring year in the borough. This is above the target of 210 per annum. There were no affordable housing completions on rural exception sites in the 2021-2022 monitoring year.
Policy C3 - Specialist Housing	1. Number of new Extra Care units completed on an annual basis	 To deliver 954 net additional units over the Plan period and deliver at least one extra facility in each of the borough's localities, and to achieve no net loss of Specialist accommodation. 	1. Positive	1. Two extra care and specialist facilities were completed during the 2021/22 monitoring year; these were at Oliver Leese Court (20/31837/FUL) and Land Adjacent To The Fillybrooks (19/29876/FUL). Planning permission was also granted for a further 5 extra care facilities.
Policy C4 - Housing Conversions and Subdivisions	1. N/A	1. No target	1. N/A	1. No indicator proposed.

Policy C5 - Residential Proposals outside the Settlement Hierarchy	 Number of net completions of rural exception houses Number of inappropriate developments granted in the Green Belt 	 On rural exception sites 100% dwellings affordable in perpetuity for lifetime of development. Number of inappropriate developments to be permitted in the Green Belt 	1. Neutral 2. Neutral	 There were no affordable housing completions on rural exception sites in the 2021-2022 monitoring year. No sites above 10 dwellings permitted in the green belt in the 2021-2022 monitoring year. A total of five dwellings across two planning applications have been permitted in the green belt this monitoring year.
