

FREE SAFETY AWARENESS EVENT!

ARE YOU LOOKING TO HAVE A FIREWORK/BONFIRE DISPLAY THIS YEAR?

Firework and Bonfire displays can provide fun and entertainment for families and we want to ensure that any displays you provide are **SAFE** as well as entertaining. Despite annual safety warnings 100's of people can be injured during the month of November. We are offering you a firework safety workshop to help you plan a safe display that runs smoothly and doesn't end in tragedy.

Staffordshire Local Authority Environmental Health, together with Staffordshire Fire and Rescue Service, are holding **4 workshops** for businesses such as pubs, clubs, scout groups and schools etc. who set up their own displays and do not use specialist pyrotechnic companies.

The events are free, but spaces are limited. To avoid disappointment book early. The sessions will be held at several fire stations across Staffordshire on the following dates:

14 September 2015, 15 September and 21 September 2015.

For further information or to book a place, please contact:

Email: ehtechsupport@staffordbc.gov.uk Tel: **01785 619000** before the 14 September 2015.
