

Stafford Borough Council

Statement of Five Year Housing Land Supply (at 31 March 2019)

Introduction

This five year housing land supply statement sets out Stafford Borough Council's residential land supply position as at 31st March 2019, and considers the likelihood of that supply constituting a five year supply of housing land.

The National Planning Policy Framework (NPPF) 2019 states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old. This document addresses the following key questions:

- What is the five-year housing land requirement?
- How much deliverable housing land is there in Stafford Borough?
- How many years of housing land supply exist?

Five Year Requirement

Housing Requirement

The introduction of the NPPF in 2012 resulted in a greater emphasis being placed on Local Planning Authorities to determine their own housing requirements. An extensive amount of work was undertaken in the preparation of the Plan For Stafford Borough 2011-2031 to establish the objectively assessed housing need.

The Plan for Stafford Borough (Part 1) was adopted on the 19th June 2014. It sets out a requirement for 500 dwellings per annum, to be delivered over the Plan period; this reflects the objectively assessed need.

The way in which housing need is calculated has been amended in the revised NPPF. The NPPF 2019 expresses the need to undertake a local housing needs assessment using the standard method to inform policy making.

In order to inform the New Local Plan an independent assessment of local housing need, using the standard method, was commissioned by the Council in June 2019 resulting in a figure of 408 dwellings per annum.

Paragraph 73 of the NPPF stipulates that if a Plan is more than 5 years old the local housing need figure should be used in the 5 year land supply calculation.

The strategic policies of the plan were more than 5 years old on 19th June 2019. Therefore the housing requirement for the purposes of the 5 year land supply statement defaults to the local housing need figure after this date.

The housing requirement will therefore utilise the adopted plan target of 500 dwellings per annum up to 19th June 2019 and 408 dwellings thereafter.

Buffer

The NPPF sets out in paragraph 73 that the supply of specific deliverable sites should include a buffer (moved forward from later in the plan period) of:

- (a) 5% to ensure choices and competition on the market for land; or
- (b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
- (c) 20% where there has been significant under-delivery of housing over the previous three years, to improve the prospect of achieving the planning supply. This is measured through the Planning Delivery Test (a 20% buffer is applied when delivery is below 85% of the housing requirement).

In the light of the local planning authority passing the housing delivery test and significantly exceeding delivery in the last 5 years a 5% buffer has been applied.

The table below sets out the total completions for the past 8 years (the adopted Plan period) and the significant over-delivery in the last 4 years.

Year	Completions	Target	Shortfall ¹
2011/12	425	500	75
2012/13	306	500	194
2013/14	411	500	89
C2 completions ² 2011 - 2014	69	n/a	- 69
2014/15 ³	428	500	72
2015/16 ⁴	688	500	-188
2016/17 ⁵	1010	500	-510
2017/18 ⁶	863	500	-363
2018/19 ⁷	699	500	-199
Total	4,899	4,000	-899

Shortfall

The Plan for Stafford Borough, and the associated evidence base, identifies the objectively assessed housing need across the Borough. As stated in the National Planning Practice Guidance (PPG) paragraph 44 “The level of deficit or shortfall will need to be calculated from the base date of the adopted plan and should be added to the plan requirements for the next 5 year period (the Sedgefield approach)”. Since the start of the Plan period there has been over-provision against the Plan target of 899 dwellings. Therefore, there is no need to allow for a shortfall in the calculations, nor to consider how any shortfall should be addressed.

Requirement per annum	500
Requirement 1 April 2011 - 31 March 2020	4,000
Net Completions 1 April 2011 - 31 March 2019	4,899
Shortfall 1 April 2011 - 31 March 2019	-899 (ie over provision)

¹ Where a negative number is shown this denotes over-provision above the target.

² Between the years 2011 - 2014 the Council did not count C2 residential accommodation as contributing towards the 5 year land supply. As there were 69 previously uncounted C2 completions between 2011 and 2014, the shortfall from these years should be reduced by 69. Appendix 1 sets out completions data for all C2 dwellings that have been recorded as completions between 2011 and 2014.

³ This includes C2 and C3 completions for the monitoring year 2014/15.

⁴ This includes C2 and C3 completions for the monitoring year 2015/16

⁵ This includes C2 and C3 completions for the monitoring year 2016/17

⁶ This includes C2 and C3 completions for the monitoring year 2017/18

⁷ This includes C2 and C3 completions for the monitoring year 2018/19

Housing Land Requirements

The Housing Land Requirements are set out below including a 5% buffer allowance.

Housing Target 2019 - 2024 ⁸	2,061
Housing Target 2019 - 2024 (5% buffer applied)	2,164
Total Housing Requirement 1 April 2019 - 31 March 2024	2,164
Annualised Housing Requirement 2019 - 2024	433

Housing Land Supply

Sites with Planning Permission

The NPPF requires that there should be a 'supply of specific deliverable sites'. The definition of deliverable can be found on page 66 of the NPPF Glossary.

'To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a. sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b. where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.'*

Essentially all sites with detailed planning permission and all small sites with planning permission are considered deliverable. For major sites with outline planning permission, permission in principle, allocated in a development plan or identified on a brownfield register then clear evidence on deliverability will need to be provided.

⁸ 500 dwellings per annum up to 19th June 2019 and 408 dwellings per annum thereafter (up to 31st March 2024), 2019/20 = 429, 2020/21 = 408, 2021/22 = 408 = 2022/23 = 408 2023/24 = 408

Small sites with Planning Permission (Appendix 3) - These are sites where there are less than 10 dwellings, which the Council considers to be deliverable in the next five years as they have the benefit of residential consent granted in the last 3 years or development has commenced.

There are a number of small sites with a valid permission that were granted prior to March 2014. The Council considers that small sites which have either been under-construction or have not started for over 5 years are not a reliable source of supply, so they have been removed from the calculation. A 10% "lapse rate" has been

applied to smaller sites to reflect the likelihood that some of the sites will not come forward during the five year period.

Therefore the committed figure of 254 units from small sites is reduced by 25 units, to give a revised total of 229 committed units.

Large sites with Planning Permission (Appendix 4) - These are sites of 10 or more dwellings, which the Council considers to be deliverable in the next five years as they have the benefit of residential consent. To assess the deliverability of these larger sites, the Council has contacted the relevant developers to determine the progress of each site and when it is likely to be delivered. A statement of common ground has been signed between the Council and the developer where delivery has been confirmed. Where confirmation of delivery has not been received a 10% discount has been applied.

Following these discussions, the committed figure from larger development sites is 621 units.

Sites with Planning Permission for C2 residential accommodation (Appendix 5) - the PPG makes it clear that certain types of C2 residential accommodation can be counted towards the housing requirement.

The Council considers it prudent to differentiate between the different types of accommodation classed as C2. Where all the facilities for each unit (dwelling) are behind a separate door, these units will be counted in full towards the supply. However, where a development is a "bedroomed" development, such as a care home, the number of bedrooms provided cannot simply be used as a proxy for the number of dwellings that will be released to the market, thus contributing to a net increase in supply. In accordance with the PPG (paragraph 43) the Council has applied a ratio of 1.8 adults per household to each C2 bedroomed establishment, meaning that for each 1.8 bedrooms in a care home 1 dwelling is released into the market.

The committed figure from self-contained units is 105. The committed figure from bedroomed developments of 199 units is divided by 1.8 to give a revised total of 111 committed units. Therefore the total committed figure from C2 uses is 216 units.

Allocated sites

It is considered that the Strategic Development Locations (SDLs) identified in the adopted Plan for Stafford Borough are deliverable. The Inspector's Report concluded in paragraphs 85 and 100 that the development strategy, including the SDLs, was appropriate, effective, deliverable, sustainable, justified and soundly based. The Council has regular contact with the developers of these sites and is confident in their deliverability.

The SDL allocations will deliver 1,891 houses in the five year period (Appendix 6).

Comparing Requirements with Supply – Five Year Supply Summary

The calculations of residential requirement and land supply, as set out below, show how the Borough will meet its objectively assessed need, as required by the National Planning Policy Framework.

The information in this report shows that the Council has a total supply of 6.83 year's deliverable housing land available.

Annualised housing requirement	Total annual housing requirement 2019 - 2024 including 5% buffer	433
Total five year supply breakdown	Small Sites with Planning Permission	229
	Large Sites with Planning Permission	621
	Sites with Planning Permission for C2 residential accommodation	216
	Strategic Development Locations	1,891
	Total Deliverable sites (2019 - 2024)	2,957
Total five year supply	Supply / Requirement (2,957 / 433)	6.83

Appendix 1 - Use Class C2 Completions 2011 - 2014

Address	Settlement Planning	Application No	Proposal	Date Decision Issued	Bedroomed Development Completions (net gain)	Self Contained Unit Completions (net gain)
Burley Heights	Seighford	13/18902/COU	Change of use of existing residential dwelling to Class C2 Use - Residential Institution with associated car and cycle parking, boundary treatments, refuse point and provision of a secure therapeutic garden	09/08/2013	5	0
Land At No. 25 Hilderstone Road	Meir Heath	11/15248/FUL	Demolition of bungalow and construction of a Mini Extra Care Scheme comprising 7 No one bedroom flats, staff accommodation and communal facilities, with associated car parking.	13/10/2011	0	6
Heyfields House	Tittensor	12/16561/OUT	Proposed specialist continuing care nursing home	22/02/2012	11	0
Land South Of Cooperative Street	Stafford	12/17900/FUL	Demolition of buildings; replacement with Health and Well Being Centre, Extracare, Community Hub, Energy Centre and Dementia Care buildings with public space; new dwellings including supported housing.	04/02/2013	59	0

Address	Settlement Planning	Application No	Proposal	Date Decision Issued	Bedroomed Development Completions (net gain)	Self Contained Unit Completions (net gain)
Land At 22 The Crescent, Doxey	Stafford	12/17703/FUL	Demolition of existing building & construction of a mini extra care scheme comprising of 8 no. one bedroom flats with independent supported living for people with learning disabilities, staff accommodation and communal facilities with associated parking	20/02/2013	0	7
				Totals	75	13
				25% discount	<u>56</u>	

Applying the 25% discount to the bedroomed development completions reduces the contribution from this type of development to 56. The total C2 completions figure for 2011-2014 is 69.

Appendix 2 - 2018/19 Completions information

Completion Type	Completions
Market and affordable permissions	378
SDL	313
C2 permissions (ratio of 1:8 applied to bedroom developments)	8
Total	699

The total number of completions for the monitoring year 2018/19 is 699. A full breakdown of the completions is provided in the housing land monitor - Land for New Homes.
