Subject: Consider wording of SP7 with ref to cross-referencing to C5 and final sentence

Dear Sean

Consider wording of SP7 with ref to cross-referencing to C5 and final sentence

Council response = In terms of Spatial Principle 7 the Council considers that cross-referencing to Policy C5 would provide clarification. Amend criterion ii) to read as follows "It is consistent with the objectives of Spatial Principles SP6, Policy E2 and Policy C5 in supporting rural sustainability".

Kind regards

Alex
