Dear Lisa

Thank you for your message and the attached letter which I have not seen before today.

I can confirm that the majority of representations to the Plan for Stafford Borough – Modifications were submitted before the deadline of 12 noon on 20th March 2014. However it took the Forward Planning team a day and half to process all of the emails and letters, and make them live in Objective, our e-consultation programme. Therefore the date and time shown in Objective is the date and time the representations were approved and uploaded by the Forward Planning team, not the date and time they were submitted to the Council.

For information, we had 9 late representations, which came in after the 12 noon deadline. We accepted all of these representations and the Council has provided a summary together with a response (please see the link below). The late representation number are 209, 210, 211, 212, 213, 214, 218, 219, 220.

<http://www.staffordbc.gov.uk/live/Documents/Programme%20Officer/Programme%20Officer%202013/O1.10---Summary-of-Modification-representations-and-Council-response.pdf>

You will note that I have copied the Programme Officer into this response and attached your letter following your request for the Inspector to be informed.

Kind regards

Alex
